

### ADD TO NOTAMS

13. **CAUTION:** Skydivers operate out of 7FD6 (Loxahatchee, Private), daylight hours from 10,000 and below, 2 nm radius. 7FD6 is 1.5 nm, mag bearing 210° from FD38 or 257°/12 from PBI VORTAC 115.7. Divers land about ¼ to ½ nm east of 7FD6. Arrivals from the west and southwest should use caution as well as the downwind and base for runway 33 at FD38. Skydiving operations monitor and transmit on 122.85. All pilots should announce arrival at least 10 nm whenever possible and avoid the area SSW of FD38 (210°/1.5 nm) when parachute jumping is in progress.

#### Notes:

1. Change NOTAM currency date to ---- as of 1 August 2009.
